

# BACKPAX™ SERIES

## HPO-2X BACKPACK

### COLLAPSIBLE BACKPACK WITH BRASS HAND PUMP

The **WATERAX HPO-2X** is a rugged collapsible backpack made of durable nylon fibrecoated with neoprene. The neoprene bag is UV resistant and fireproof. It also offers exceptional abrasion resistance and can easily be repaired in the field with standard tire patches.

The **HPO-2X** backpack is equipped with the **WATERAX HPC-X** brass hand pump. The all-new brass hand pump design features a forward grooved hand grip and a rear pistol grip that makes operating the hand pump easier on the wrist and requires less effort than standard hand pumps. It is easy to maintain and is field-reparable. It includes a locking mechanism to prevent drag, extension by gravity, and water loss through drip. The combination tip allows for quick change from spray to straight stream without any tools.

#### Applications

- Hot spotting
- Mop-up
- Prescribed burn operations
- Campsite protection
- Industrial operations

#### Features and Benefits

##### Tank

- Made of Nylon fibre coated with Neoprene
- Excellent abrasion resistance and in-field repairable
- Fireproof
- Resist to UV and ozone
- Resist to oil and gasoline
- Collapsible for space saving

##### Hand Pump

- All brass & stainless steel construction
- Sturdy and ergonomic nylon rear pistol grip
- Grooved forward rubber grip
- Dual nozzle allows for quick switch from stream to spray
- Field repairable
- Locking feature
- D-ring for clipping to shoulder straps
- Ambidextrous
