Helmets and Accessories

Rely on Bullard

Quality

Designed with you in mind, Bullard fire helmets offer durability, design, and dependability. Bullard fire helmets are built to last.

Comfort

Made with adjustments for fitting, Bullard fire helmets are designed for a comfortable fit and offer removable parts for easy replacement.

Choices

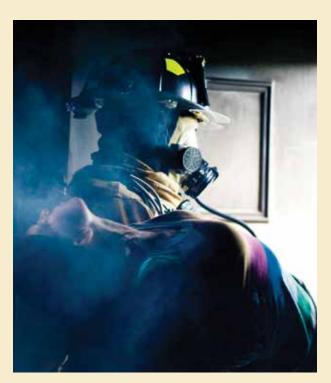

Bullard offers the most expansive line of head protection for structural, ARFF, wildland, and emergency/search and rescue applications in the world.

Expertise

Known for our engineering and design expertise, Bullard puts protection and comfort at the forefront of our products.

Innovation

Leading the market in innovation since the launch of the first fiberglass fire helmet in 1947, Bullard introduced the first thermoplastic fire helmet, first optically correct faceshield, and first fully integrated helmet lighting solution.

Best in Class Warranty

Bullard offers a best in class warranty. Bullard warrants to the original purchaser that the firefighter helmet and non-electronic components are free of defects in materials and workmanship under normal use and service for a period of five (5) years from the date of manufacture on the helmet shell and lifetime (as defined in NFPA 1851: 10 years) warranty on the non-electronic components.

UST Series Helmets

UST Series structural firefighter helmets provide classic traditional style in an affordable, easy-to-maintain design. With an outer shell made of Thermoglas®, the UST offers toughness and durability. Chipping and cracking found in conventional fiberglass is virtually eliminated. Thermoglas qualities also include the highest level of chemical resistance and stability at extreme temperatures.

Available in either glossy finish (UST) or a matte finish with a textured, non-glossy look (USTM), the UST Series helmets are the preference of the traditional firefighter. Get the look of a leather helmet with the protection of an NFPA 1971 certified model. The UST Series Helmets are available with TrakLite® Integrated Helmet Lighting. See page 13 for details.

UST Series Striping Options Offer Additional Accountability

- Red-Orange Scotchlite Retroreflective Stripes
- Lime-Yellow Triple Trim Scotchlite Retroreflective Stripes
- Red-Orange Triple Trim Scotchlite Retroreflective Stripes

and Leather Front

UST Series Helmets

Standard Features

- ① Special Thermoglas® outer shell
- ② M-Pact Plus inner liner system
- ③ Replaceable brass eagle or Canadian maple leaf
- 4 Custom leather front (sold separately)
- ⑤ 4" optically correct faceshield or ESS goggles
- ⑥ Nomex[®] ear/neck protector
- 7 Chinstrap with postman's slide
- ® Sure-Lock® ratchet headband with comfort brow pad

- $@\ Scotchlite^{\circledR}\ reflective\ markings$
- 1 Brass D-ring
- © Crown straps with crown pad
- ⁽³⁾ U-Fit system with 12 comfort settings

The FX and PX Series from Bullard offers a lightweight contemporary look with a lower profile and less restrictive, compact design than traditional styles. FX and PX Series helmets comply with NFPA, Austrailian, and European requirements, as well as advanced military fire standards.

FX Series

FX composite helmets are resistant to chemical attack and stable under high heat exposure. Featuring color pigment that is molded directly throughout the outer shell, nicks and chips are less visible.

PX Series

The PX helmets have an advanced, specially formulated, high-heat thermoplastic outer shell, which makes PX the ideal fire helmet for heavy duty. No other fire helmet has the proven on-the-job performance or long-lasting durability of the PX.

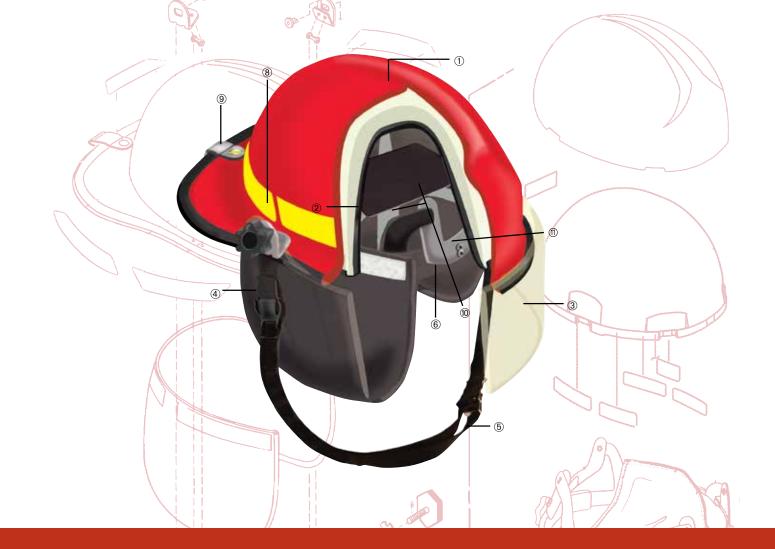

The FX and PX Series Helmets are available with TrakLite $^{\circledR}$ Integrated Helmet Lighting. See page 13 for details.

FX and PX Series Striping Options Offer Additional Accountability

- Stainless steel D-ring
- 10 Crown straps with crown pad
- ① U-Fit system with 12 comfort settings

NFPA 1971 Certified EN443 Certified (FXE) AS/NZS 4067 (PXAS)

Bullard presents an advanced, lightweight, thermoplastic structural fire helmet: the LT Series. The LT is the result of 20 years of Bullard polymer technology and engineering expertise.

Beyond the compact, low-profile design, the LT Series features the innovative Quick-Attach Blade System for rapid installation and removal of both faceshields and goggles without any tools. Simply press on or off the faceshield or goggle in seconds, creating flexibility to choose the right option for the right application.

The LT offers the lightest configuration in an NFPA 1971 compliant fire helmet on the market. Experience a reduction in stress and fatigue with this lightweight helmet, without giving up performance. The LT Series Helmets are available with TrakLite® Integrated Helmet Lighting. See page 13 for details.

- (11) Four-point crown strap assembly
- ¹² U-Fit system with 12 comfort settings

AX Series Air Rescue Fire Fighter Helmets

AX Series helmets are engineered specifically for the adverse environmental conditions during proximity fire fighting incidents that release high levels of radiant, convective, and conductive heat.

The standard AX model is based on either the FX, UST, or USRX or structural fire helmet platform. When combined with an aluminized helmet shell cover, aluminized shroud, and a 6" gold-coated faceshield, it meets the proximity fire fighting protective helmet requirements of NFPA 1971.

Standard Features

- ① Fiberglass or Thermoplastic (USRX) outer shell
- 2 Inner liner system
- 3 6" gold-coated faceshield
- 4 Sure-Lock® ratchet headband with comfort brow pad
- **⑤** Aluminized helmet cover
- 6 Standard aluminized shroud
- ⑦ Crown straps with crown pad
- ® U-Fit system with 12 comfort settings

NFPA 1971 Certified

Wildfire® Series Helmets

FH911C Series Helmets

The C Series is the traditional cap style wildland helmet. The lightweight, low-profile design offers superior protection in all wildland firefighting conditions. Combined with both ear/neck and face shrouds, FH911C helmets exceed all NFPA 1977 requirements, as well as ANSI/ISEA Z89.1, Type I, Class E & G.

FH911H Series Helmets

Bullard H Series is a full-brim style wildland helmet. With a 360-degree brim, the H Series provides additional protection from sunlight, as well as airborne debris. FH911H Series helmets exceed all the requirements of NFPA 1977 as well as ANSI/ISEA Z89.1, Type I, Class E & G.

Standard Features

- ① Heat-resistant Thermoplastic outer shell
- 2 6-point FRS6PC (pinlock) suspension or FRS6RC (ratchet)
- ③ Goggle clips
- 4 Scotchlite® reflective markings
- ⑤ Underbrim anti-glare strip
- © Leather ratchet cover (on ratchet models)
- Velcro® attachments inside shell for Ear/Neck Protector (not shown)

FH911CR

FH911XL

Same as Model FH911H with extralarge full-brim thermoplastic shell. Available with ratchet suspension only.

Wildfire Series Striping Options Offer Additional Accountability

- Lime-Yellow Scotchlite[®] Retroreflective Stripes
- Red-Orange Scotchlite Retroreflective Stripes

NFPA 1977 and ANSI/ISEA Z89.1, Type I, Class E & G Certified www.bullard.com

- High-heat Thermoplasti outer shell
- ② M-Pact inner liner system with SmartRidge design
- ③ Quick-Attach blade system
- 4 ESS goggles
- ⑤ Nomex[®] ear/neck protector
- 6 Three-point chinstrap
- ⑦ Sure-Lock[®] ratchet headband
- ® Leather ratchet cover (not shown)
- Four-point crown strap assembly
- 10 U-Fit system with 12 comfort settings

Search and Rescue Helmets

USRX Urban Search and Rescue Helmet

USRX rescue helmets are engineered for extreme search and rescue conditions. Featuring a streamlined design, USRX rescue helmets incorporate recommendations from USAR teams and other rescue professionals. The result is an integrated assembly of advanced USRX materials and quality components that provide superior head protection, comfort, and long-lasting durability. The USRX is dual certified to meet both NFPA 1951 and NFPA 1971 for Urban Search and Rescue and Structural Firefighting.

Advent® Series Rescue Helmets

The Advent® helmet offers paramedics, emergency medical personnel, hazardous response teams, and search and rescue personnel a revolutionary concept in head protection.

This helmet provides top, front, side, and rear impact and penetration protection.

Advent meets and exceeds ANSI/
ISEA Z89.1, Type II, Class E & G requirements and is half the weight of conventional firefighter helmets.

Magma® Series Helmets

The new Magma[®] helmet system is based on a platform that enables you to configure your individual helmet. Whether a type A half-shell helmet or type B three-quarter-shell helmet, the construction kit offers it all, while keeping the design thoroughly consistent. The system allows for customized choices without compromising comfort, safety, and functionality.

Magma features a lightweight design thanks to an innovative shell material, while offering utmost functionality.

Magma[®] Helmets are EN 443 Certified; Visor and Eye Protection is EN 14458 Certified.

NOTE: While Magma helmets are not NFPAcompliant, Bullard European style FX (FXE) complies with NFPA and CE requirements.

Standard Features

- ① Fiberglass outer shell
- ② Three-dimensional visor
- ③ Front frame
- 4 Polyurethane
- ⑤ Ratchet head ring
- 6 Flashlight adapter
- 7 Strap system
- O Strup System
- 8 Nomex® ear neck protector

Accessories

Goggles

Eye Safety Systems (ESS) brand of goggles are available in a variety of designs to meet any structural, rescue and wildland requirements for eye protection. Bullard, in conjunction with ESS, has developed and certified specific ESS goggles for use with all Bullard helmets. These high performance goggles provide additional eye protection options that can address primary eye protection issues defined in NFPA 1500, OSHA Standards 29CFR, and ANSI/ISEA Z87.1 requirements.

Faceshields

Available in 4- and 6-inch sizes, Bullard offers faceshields to fit any structural, ARFF, and rescue application.

Bourke Eyeshields

Bourke eyeshields (Non-NFPA) are available when purchased with Bullard ESS goggles.

Ear/Neck Protectors

Standard on many helmet models, Bullard ear/neck and face protection is offered in Nomex[®] and PBI/Kevlar[®] outer shell materials. Flame-retardant facecloth and moisture barrier options enhance the comfort and protection needed for any fire and rescue condition.

TrakLite® Integrated Lighting

Bullard's UST, FX, PX, and LT are available with TrakLite[®] helmet lighting. Featuring eight forward-facing, long-lasting, bright LED lights, TrakLite is the only light on the market that is integrated into the helmet design for excellent weight balance and illumination.

* TrakLite is now CSA-certified Nonincendive Electrical Equipment for use in Class I, Division 2 Hazardous Locations.

Retrofit options are also available.
